

Nicholas Warena

Sudbury, ON | (705) 988-4831 | nickwarenda@gmail.com | [linkedin.com/in/nicholaswarenda](https://www.linkedin.com/in/nicholaswarenda)

EDUCATION

Laurentian University

Sudbury, ON

Bachelor of Computer Science (Honours)

(2018 - 2022)

- Dean's Honours List (2020-2021)
- Final Project: Using Environmental Sensor-Based Modelling for Detecting and Fighting Wildfires: Used Java and XML to simulate and model a remote area wildfire detecting system, and provided possible solutions in using technology to make remote firefighting safer and more effective.

EXPERIENCE

Canada Revenue Agency - Sudbury Tax Centre

Sudbury, ON

The CRA plays a key role in helping the Canadian government achieve its objectives, through tax assessment, benefit delivery, revenue collection, and audit.

Examiner & Document Processing Clerk:

Feb 2024 – June 2025

- Analyzed taxpayer documentation and processed returns accurately and within deadlines.
- Reported data anomalies to management, recommending procedural adjustments to improve processing accuracy.
- Trained co-workers on job processes as needed.

Golf Sudbury - Cedar Green Golf Club

Sudbury, ON

Golf Sudbury owns and operates five courses in the Greater Sudbury area.

Starter Manager

Apr 2017 – Nov 2024

- 2024 - Starter Manager: Led tournament preparation and scheduling, coordinating with the operations manager to streamline processes and foster strong team relations.
- 2017-2024 - Pro Shop Assistant: Delivered high-quality customer service and managed transactions for merchandise and refreshments, contributing to smooth daily operations.

Accutron Instruments

Sudbury, ON

Accutron is a mine ventilation monitoring specialist.

Software Developer (3-Month Contract)

Jun 2022 – Sept 2022

- Modernized front-end for multiple web apps at Accutron, utilizing ReactJS and Bootstrap.
- Created and edited documentation for user-based interface testing, leveraging Git for version control.
- Worked with REST API to retrieve/deliver JSON data, and MobX/Redux for state management.
- Testing and deploying firmware updates, and providing the research and development team with bug reports.
